

Laufwunder Sensitive Balm

With micro-silver and ceramides
For skin prone to irritation.

Free from perfume and colour!

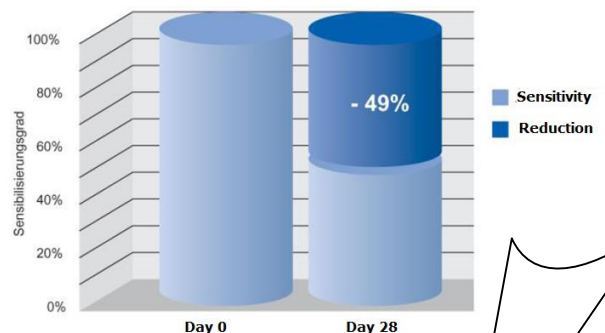

Laufwunder Sensitive Balm has been specially developed for the daily, intensive care of very sensitive and dry skin, as well as skin prone to eczema. Pure micro-silver particles which are antimicrobial stabilise the flora of the skin and soothe it. A combination of caring, herbal substances and skin compatible oils increase the moisture content of the skin, provide the skin intensively with valuable lipids and soothe irritated skin. The Sensitive Balm is low in emulsifiers and free from both perfume and dye.

Laufwunder Sensitive Balm is also suitable for skin care with neurodermatitis in the eczema-free interval. Its effectiveness and skin compatibility have been proven in dermatological trials.

The effect of Silver ions on the skin.

Reduction in skin sensitivity after 28 days of use (49% on average)

All Laufwunder products are only available through foot specialists in the UK. They are not available over the counter!
